

STANDARD's **LOW VOLTAGE TAPE LIGHT** offers designers and architects a sleek new way to decorate spaces. Its thin PCB board and 5050 LED chips ensure crisp, vibrant light. 3M adhesive tape ensures easy mounting on many surfaces.

Features

- Can be cut to size at marked intervals (every 10 cm)
- Quick connectors allow you to rejoin various lengths and work around corners
- 3M adhesive backing for solid, easy installation
- Colour changing RGB tape lights offers an array of designs and patterns
- High quality 5050 SMD LEDs spaced every 3.2 cm (1 ¼ in.)
- The crisp, vibrant light minimizes heat output and UV emissions
- A silicon cover allows for exposure to damp locations without lumen loss or yellowing over time
- Quick, easy installation - plug and play no wiring needed

Applications

- Perimeter
- Cove lighting
- Under cabinet
- Borders
- Architectural

RGB/CW/WW

Kit includes:

- Tape light
- 1 power supply
- Remote control (for RGB kit only)
- RGB controller (for RGB kit only)
