

Features

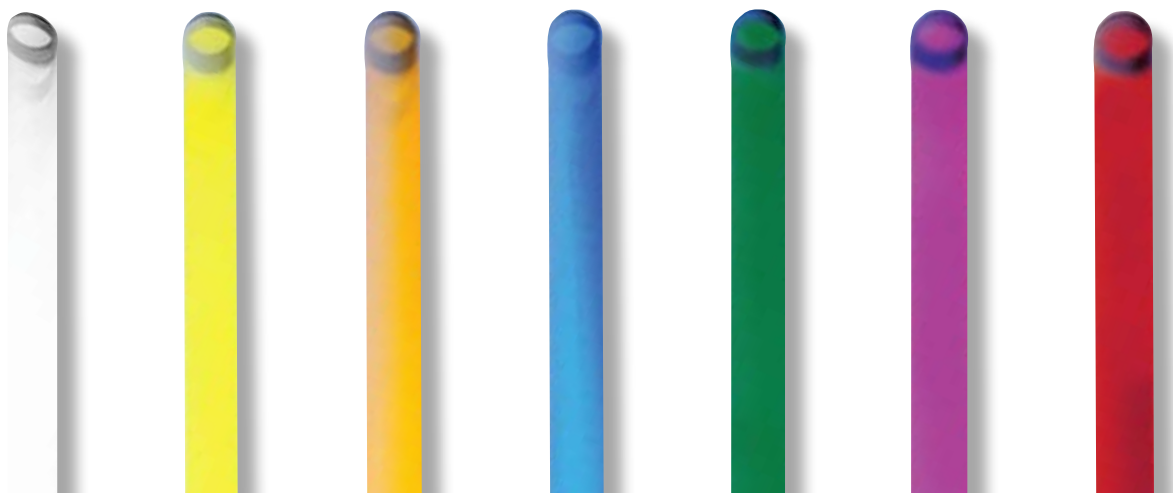

- Tube guards slip over lamps and retain shattered glass and phosphors providing an efficient and economical solution in problem areas
- Made from extruded polycarbonate, tube guards have a high tensile and impact strength over a wide range of temperatures
- Tube guards are secured by means of two universal end caps made of black high heat polypropylene
- Heat sink screen also available for HO and VHO lamps (not available for T5HO)
- Can be cut to size upon request (subject to minimum order quantities)

Benefits

- Provide protection against dirt, thus reducing cleaning cycles and lamp replacement due to breakage
- Available in a variety of colours, lengths, and diameters to fit all conventional fluorescent lamps
- CLEAR UV FILTERING tube guards have 0% transmittance below 395 nanometers (nm)
- YELLOW UV FILTERING tube guards have 0% transmittance below 480 nanometers

Applications

- Schools
- Hospitals
- Museums
- Libraries
- Art galleries
- Areas where control of UV degradation is critical
