

Features and Benefits

- Acrylic globes are heat, weather, and yellowing resistant
- Polycarbonate globes are heat, weather, and impact resistant
- Globes with notched necks are compatible with twist lock post top fitters. Those with neckless holes require a wing clamp post top fitter
-  recognized watershields

Applications

- Can be mounted on post top fitters and wall brackets, in both commercial and residential applications

Post Top Fitters

Features and Benefits

- Fitters come with spring loaded wing clamps with balance posts
- To be used with 5.25" neckless globes and shapes
- UL listed for wet and damp locations

Applications

- Use these post top fitters on regular 3" posts
